

Pneumatic Ball Vibrators

BG Series

The BG ball vibrator is an omnidirectional pneumatic device for generating circular vibrations by means of a ball. Frequency and amplitude vary according to the air flow or pressure applied.

BG19/BG25/BG35

BG13

Features:

- Cast-iron body
- Maintenance-free
- Compressed air operating range from 2 to 6 bar
- Equipped with silencer filter and air inlet connection
- Supplied with intake manifold and silencer, boltless

Highlights:

- Designed for outdoor use in extreme conditions
- Lightweight, compact design

Energy : Pneumatic

Sectors : Industry

Applications : Compaction, Conveying, Draining, Flow, Screening, Sorting
